Matthew Holt is the CEO of Intellium. His background encompasses 23 years of international experience focused on developing national / corporate cyber security strategy, policy, and governance models. His work with both government and private sector clients includes the United States Department of Defense, National and Multi-National Government bodies in Europe and the Middle East, and multiple Fortune 500 companies worldwide.

Matthew's previous engagements include five years with Booz & Company, where he developed the firm's Cyber Security and ICT Resilience service offering, as well as ten years on active duty in the United States Air Force as a network engineering and deployment program manager.

Matthew holds an MBA from Nova Southeastern University, as well as a bachelor's degree in Information Systems Management from the University of Maryland. In addition, Matthew currently holds several cyber security certifications including CISSP, CISM, ISO 27001 Lead Auditor, and BS25999 Lead Auditor.
